

Thank you everyone who supported our Troop 4000 on Sunday, February 9, 2020 on Scouting Sunday!

We learned these young girls have a busy 2020 calendar starting off selling their infamous cookies to help support their adventure trips like spending the night at the Charleston Aquarium. Their missions are to help those staying at The Ronald McDonald house by collecting can tabs and also doing their part in being green to help save our beautiful lowcountry community by collecting plastic bottles caps, from water bottles, juices, sodas, etc. They go out to clean up the beaches for their recycle project. They plan to make a mural out of the bottle caps for an art project.

Troop 4000 has a wish list and I know we at St. Luke's UMC can assist.

They need the following:

- \***Collect plastic bottle caps** and place in the jar in the fellowship hall.
- \***Collect can tabs** and place in the Ronald McDonald House box in the fellowship hall.
- \***Serving St. Luke's UMC**, by helping our ministries, for example, clean up of the church, clean up of the cemetery, placing flags, flowers, etc. Can they assist in any outreach we may have?
- \***Volunteers!** Do you have a talent God has blessed you with in which you can share? Like, crocheting, knitting, painting, sketching, writing, sewing, flower arranging, music? The list is endless! Contact Pastor Brian or Jim Seymore for Troop Leader, Monique Thomas' contact information to schedule with the troop.

Troop leaders, Monique and Jennifer are inspirational to these young girls in helping them to change the world one girl at a time with projects and learning to build community, faith and sisterhood. This troop will succeed along with our partnership with them.

Working together is a ministry and outreach we cannot afford to miss out on and to receive blessings in abundance. I encourage everyone to continue showing love and support for them by helping 2020 to become the best year for Troop 4000!

In Christ,

Pastor Brian Preveaux
